

Director of Education shall be an Active member of CLAE living in Canada. He or she shall chair the Education Committee in consultation with the President of the CLAE. The Director of Education decides on the number of members needed for the Education Committee based on current and upcoming activities. The members of the Committee should be active or associate Members of the CLAE. He or she shall chair the scientific committee in charge of organizing the Annual Meeting of the CLAE in conjunction with the Education Committee.

He or she is responsible for the dissemination of knowledge in regards to epilepsy, among the Canadian medical community and for the organization of other educational activities on behalf of the CLAE. The Education Director performs the above activities in consultation with the President of the CLAE and reports regularly to the Board of Directors regarding these activities and is a voting member on the CLAE Executive Committee.
